Current News

There will be a September Club meeting at the field. The meeting will be held on September 14, 2019 at 10:00 am.

There will be a Warbird fun fly on September 28, 2019 at the field. This will be organized by Shawn Lenci. Please contact Shawn Lenci at 209-985-4883 or lenci1938e@aol.com for more information or to help out. He is requesting help with getting food items for lunch.

Upon discussion, the club voted to temporarily suspend the gas turbine restriction at the field. The restriction was originally for gas turbine planes to fly only between October and May. This restriction will be lifted for this year and will need to be readdressed by May 2020 to continue to have gas turbine planes fly though out the year.

Nominations for club officers for 2020 will be held at the October Club meeting with elections held during the November Club meeting. Please think about becoming a club officer to help carry the club forward. Plus, you dues will be waived for that year.

The current finances are as follows:

Account balance for August: \$6173.77

Expenditures :

Web Site (5 years)	\$599.40
Annual Lease	\$823.50
Repair Tables	\$500.00
Storage Site	\$226.00
Service Fee	\$14.00

Deposits:	\$75.00
Current balance:	\$4,085.87

Tips and Tricks from Model Airplane News

GIVE YOUR FOAM A GLOSS LOOK

If you paint foam with acrylic paint it gives it a nice look and makes it a little more durable. Acrylic paint is great to use because it will not react with the foam, and it will leave a flat dull finish, which is great for warplanes or military aircraft, but not so good for aerobatic and civilian aircraft. You can put a shine on the finish by using liquid acrylic long-lasting Shine floor wax. It will dry in about 20ñ30 minutes leaving your color scheme with a good-looking and shiny paint job.
